

INTRO

Welcome

Good morning everyone. My name is Bruno Haineault and I am the Director of Engineering at Datron World Communications and your present HFIA chairman. I wish to welcome everyone to San Diego, our home and I hope that you have enjoyed the AFCEA exposition and that you will find today's agenda interesting.

Next to me is Marcelo De Rizio from Harris Corporation, your present HFIA secretary.

Website

As most of you have already seen, our website has seen some significant changes in its look-and-feel. Our site is still being improved (work in progress). For all of these changes, I wish to thank Marcelo De Rizio, for his efforts.

As you can also see on the screen in front of you, I have played a bit with Marcelo's banner by adding some "RF" to the "I" in HFIA. Just experimenting with might become a logo one day.

Log-In Sheet

We will circulate a log-in sheet. Please fill it out and return it to the either Marcelo or me once completed.

My Replacement

As you have seen in the agenda, my term as HFIA chairman has come to an end. Additionally, my business workload has greatly increased. So it's time for me to find a successor as I am placing an undue burden on Marcelo's shoulders. Please think about this during the day so that hopefully we can have a quick election at the end of the day.

Lunch and Other

Without further a due, I will now pass it on to Marcelo De Risio who will share with you our luncheon plans along with a summary of our last meeting at the *Rohde&Schwarz* facilities in Munich, Germany.

ELECTIONS

We have reached the time where I will hopefully find my replacement. As a reminder, the term of the chairperson is two years. Unless there are any questions, I would like to open the floor for any nominations.

<names & election if needed>

EXTRO

I wish to thank everyone for being here and to our presenters for their excellent material. Please remember that unless requested otherwise, copies of these presentations will be posted on our website in the upcoming days. In the meantime the search is on for a European based company who is will to host our meeting next summer. Information will be posted on our website.

Again, thank you for attending and until next time.
